Job Title: Student Co-op ADTS Support Engineer

LyondellBasell (NYSE: LYB) is one of the leading plastics, chemicals and refining companies in the world. Driven by its employees around the globe, LyondellBasell produces materials and products that are key to advancing solutions to modern challenges like enhancing food safety and reducing food waste through lightweight and flexible packaging, protecting the purity of water supplies through stronger and more versatile pipes, improving the safety, comfort and fuel efficiency of many of the cars and trucks on the road, and ensuring the safe and effective functionality in electronics and appliances. LyondellBasell sells products into more than 100 countries and is the world's leading producer of polypropylene compounds and the largest licensor of polyolefin technologies. In 2021, LyondellBasell was named to FORTUNE Magazine's list of the "World's Most Admired Companies" for the fourth consecutive year. More information about LyondellBasell can be found at www.lyondellbasell.com.

Basic Function

The Student ADTS Support Engineer (Application Development and Technical Service) Intern will be assigned to work with ADTS Engineers to support current and prospective end customers to develop sales, create value and grow target products.

Work Location

Beijing or Shanghai or Guangzhou office of LyondellBasell

Roles & Responsibilities

- Will be assigned to work with China ADTS team to assist in key projects
- Provide support to the business in helping them to understand the customer needs and to provide recommendations
- To develop and nurture technical relationships with customers counterparts, to enhance understanding of user technical feedbacks and adherence to JV product technical advantages.
- Helps in closing customer complaints of quality and application timely.
- Exercise risk managements related to ADTS activities (e.g. technical recommendations), GoalZERO and safety.
- Liaise with Account Managers/Regional Managers, customers, and supply sources to summarize progress and conclusions of sample request
- Complete challenging assignments may arise

Qualifications/ Expected behaviors

- Study towards a Bachelor's or Master or PhD degree in Chemistry, Chemical Engineering, Polymer Science, Physics, or Mechanical Engineering or other science or engineering fields
- Overall GPA of 3.0 or above, average score 75 or above
- Knowledge of MS Office tools (Excel, Outlook, PowerPoint & Word)
- Proficient in English and Chinese (speaking, reading and writing)
- Has an interest in specializing in chemical industry
- Demonstrate analytical skills with an ability to think broadly across systems
- Able to work independently and work as a team
- Be self-motivated and responsible
- Complete the task as scheduled

Requirements

- Must be at least 18 years of age
- Chinese with fluency in Mandarin is a must, good English language skills preferable.

Internship Period

9 months

What we offer you

- Management skills, technical skills and leadership skills development
- International career development opportunities
- Diverse and dynamic working environment
- Personal effectiveness, project management and influencing skills
